

## BUILDING SERVICE CONTRACTOR

## ProGuard®

*This selection of eyewear has been designed for B.S.C. tasks like:*

- Chemical dispensing
- High dusting
- Hard surface cleaning
- Trash removal
- Grounds maintenance
- Floor maintenance

The role of the Building Service Contractor continues to expand and become an integral part of the daily operations within a facility. The diversity of job activities within a facility creates an increased risk for eye related injuries. Each day approximately 2000 US workers have a job related eye injury. The vast majority of these injuries are preventable with the use of the correct protective eyewear. ProGuard protective eyewear is engineered to provide optimal fit, style, and protection to protect workers within a variety of facilities.

BUILVERT1506

# CLASSIC

## 808 SERIES

**7320**

The indirect vent and anti-fog features of these goggles provide optimal protection where workers are mixing and/or pouring cleaning chemicals.

## 810 SERIES

**8001CC**

Low cost and functional the 810 series is ideal for any application where the eyewear is disposed of frequently.

# FIT

## 821 SERIES

**8217007**

The smaller sizing of the 821 Series makes this eyewear best suited for individuals with smaller facial structures.

## 850 SERIES

**8501000**

The UFX feature of the 850 Series makes this eyewear fully adjustable to ensure the proper fit and eye protection for all face sizes and shapes.

## 880 SERIES

**8801110**

This protective eyewear is built with a gasket lining that helps to keep out overspray that often occurs in many spray and wipe cleaning applications. This is available in a light gray tint that is ideal for cleaning interior windows in a high glare environment.

## 880 SERIES

**8805100**
